11. **BackUp Current Season** for *Champion Wrestling Stats* desktop.
This procedure will backup current season statistics once you have determined that all stats on your desktop computer are accurate.

Updating Desktop Version

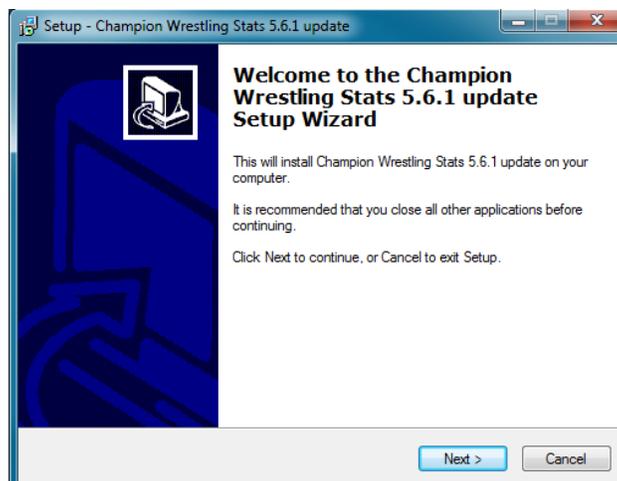

In order to transfer files between the desktop software *Champion Wrestling Stats* and *Matside Entry* on our **Mobile Web Server**, *Champion Wrestling Stats* must be updated to the latest version, version **5.61** or later. Updating *Champion Wrestling Stats* can be accomplished by going to our website at www.pes-sports.com and tapping on *Downloads and Updates*.

Scroll down to *Champion Wrestling Stats* and click on the update file named **cwsXXXupdate.exe**.

Depending on the version of your browser, you will be asked to **RUN** or **SAVE** the file.

Click **RUN** and follow the dialogs to download and update your software.

If you only have a **SAVE** option, make sure you note the location where the update is saved (usually in your **Downloads** folder). After downloading, navigate to that location and **RUN** the download.

Note: Make sure *Champion Wrestling Stats* is **NOT** open and running when you attempt to update the software.

After updating, click **Help** and **About** and the version should indicate **5.6.1** or later.

3. Choose add to **Home Screen**.

The icon for **Matside Entry** will look like the following

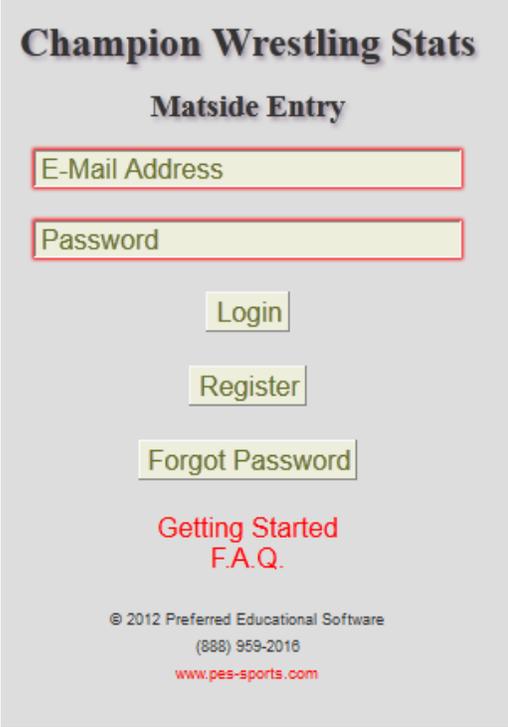

You can now easily access *Matside Entry* for *Champion Wrestling Stats* by tapping this icon from your **Home Screen**.

Logging In to the Mobile Web Server

Champion Wrestling Stats – Matside Entry can be accessed from your mobile device or desktop browser by going to www.mobilecws.com.

Instructions for **Creating a Home Screen Bookmark** on your mobile device found earlier in this document will make accessing the program much easier.

You can log in to the **Mobile Web Server** from your mobile device (iPad, iPhone etc..) or from your **Desktop PC**. Uploading files and downloading matches (stats) to and from the **Desktop PC** must be accomplished using your browser on the **Desktop PC** where *Champion Wrestling Stats* is installed.

The image shows a screenshot of the 'Champion Wrestling Stats Matside Entry' login page. The page has a light gray background. At the top, the title 'Champion Wrestling Stats' is in a large, bold, black serif font, with 'Matside Entry' below it in a smaller, bold, black serif font. Below the title are two input fields: 'E-Mail Address' and 'Password', both with yellow backgrounds and red borders. Underneath these fields are three buttons: 'Login', 'Register', and 'Forgot Password', all with yellow backgrounds and black text. Below the buttons, the text 'Getting Started' and 'F.A.Q.' is displayed in red. At the bottom of the page, there is a copyright notice: '© 2012 Preferred Educational Software (888) 959-2016 www.pes-sports.com'.

F.A.Q.

This link will open a PDF document with **Frequently Asked Questions** regarding *Champion Wrestling Stats - Matside Entry* documentation.

Note: The screens in *Matside Entry* may appear different depending on your mobile device and browser.

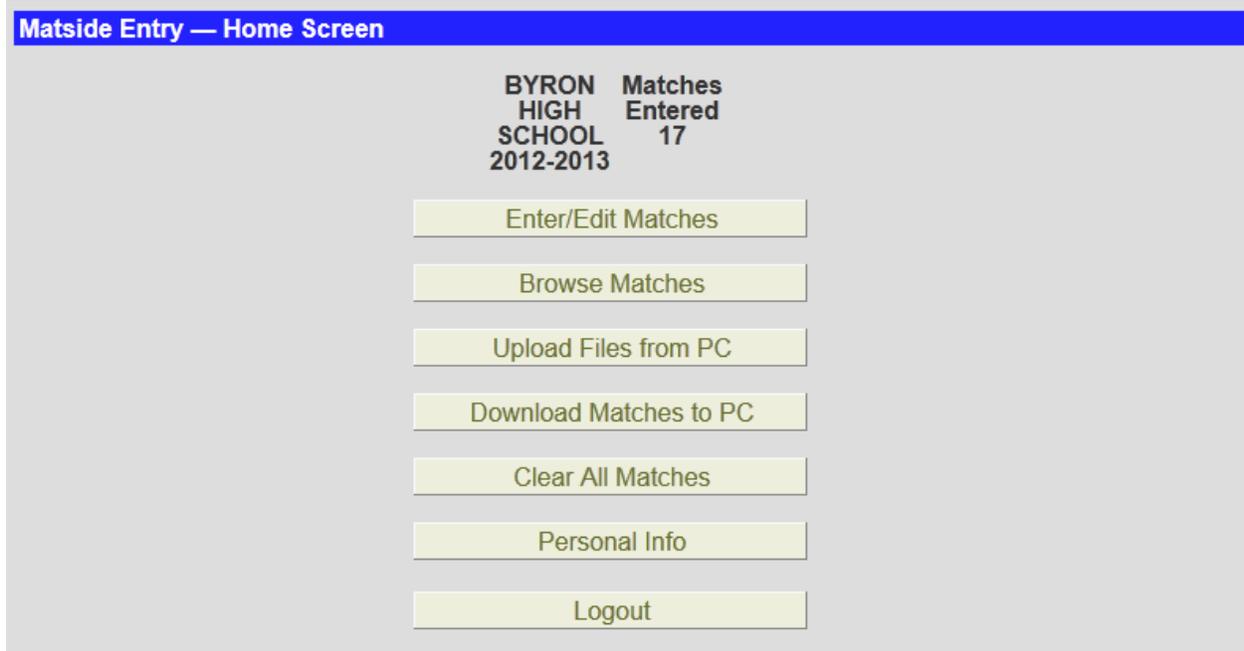

The optimal device would be a tablet such as an iPad. The screens on iPhone or Android phones may appear small and will be more difficult to maneuver entering matches.

On mobile devices with smaller screen it is advisable to use **Pinch to Zoom**, and **Double Tap** technologies often available with smartphones.

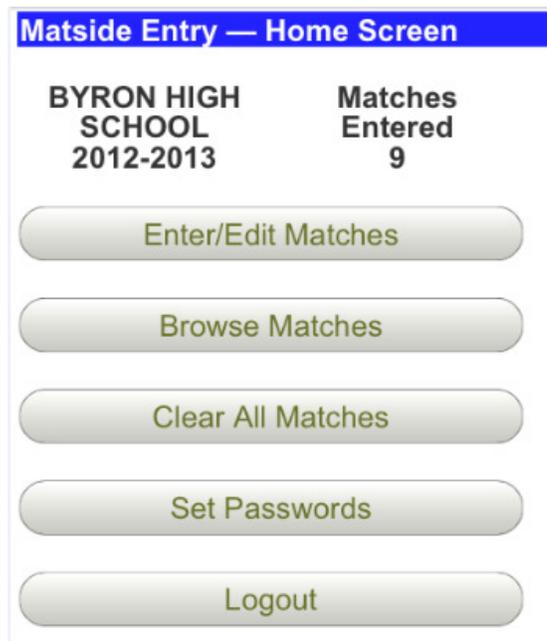

Home Screen

After successfully logging in to the **Mobile Web Server**, you will be presented with the following **Home Screen**.

Desktop Browser – Admin

Mobile Browser- Admin

Mobile Browser- Stat Taker

The following options can be selected from this screen.

Enter/Edit Matches (Stat Taker and Admin)

Selected when you **Enter/Edit Matches** (stats).

Browse Matches (Stat Taker and Admin)

Allows you to browse currently entered matches (stats).

Upload Files from PC (Admin only)

Uploads necessary **Desktop PC** files that contain information about your school to the **Mobile Web Server**.

Download Matches to PC (Admin only)

Downloads matches (stats) to the **Desktop PC**.

Clear All Matches (Admin only)

Clears all current matches (stats) on the **Mobile Web Server**. This option should be taken after matches have been downloaded and successfully import into the **Current Season**.

Personal Info (Admin only)

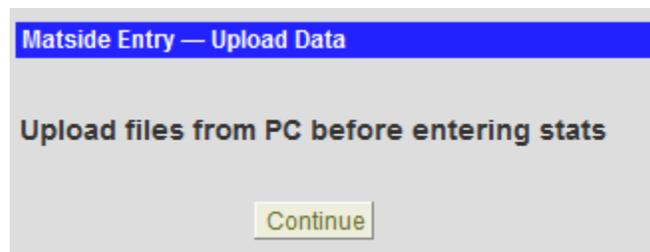

Allows the **Admin** (coach) to change personal information including **Admin Password** and **Stat Taker's Password**

Logout

Logs out of your current session.

Initial Login

The first time you login to *Matside Entry*, you will be presented with the following screen informing you that you must first upload files from *Champion Wrestling Stats* desktop before you can enter matches (stats).

This screen will always display when you tap **Enter/Edit Matches** and have not uploaded files from the PC. Instructions for **Uploading Files to PC** can be found on the following pages.

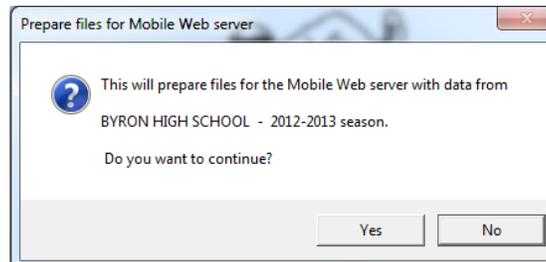

Preparing Files for Upload to Mobile Web Server

It is necessary for you to send files to the **Mobile Web Server** that reflect your school's information (Wrestler Profiles, Schools, and Program Settings).

Uploading Files to Mobile Web Server can be accomplished by clicking on **Mobile Web | Prepare Files for Upload to Mobile Web Server...** from the menu bar of *Champion Wrestling Stats* desktop software.

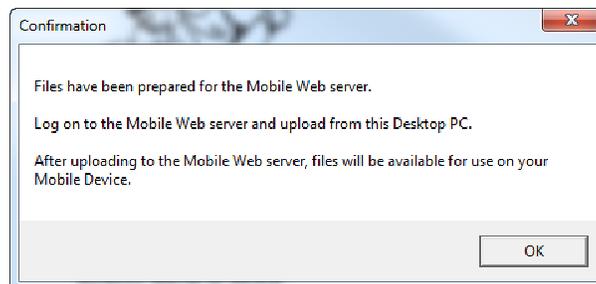

The following dialog will appear.

The following files will be created and saved in the following location **C:\CWS50\WEBOUT**.

PROFILES.CSV (Wrestler Names)
SCHOOLS.CSV (School Names)
SETTINGS.CSV (School Name, Season, Maneuvers, Values, etc..)

This option should be taken when changes are made on the **Desktop PC** (adding wrestlers, deleting wrestlers, adding schools, or changing program information).

Tip: You may have a dual meet or tournament where you wrestle a school that was not entered on your desktop and uploaded to the **Mobile Web Server**. By design, you do not have the ability to enter schools and or wrestlers on your mobile device (**Mobile Web Server**). If we allowed this, there would be issues when importing matches into your **Current Season** on the desktop. We suggest creating a school on *Champion Wrestling Stats* desktop named **TBD** and use this for those occasions when you wrestle a school that is not currently on the **Mobile Web Server**.

Uploading Desktop Files from Desktop PC to the Mobile Web Server

Once your files are prepared on *Champion Wrestling Stats* desktop, they can be uploaded to the **Mobile Web Server**. This must be done on the **Desktop PC** browser, not your **Mobile Device**. Only the **Admin** account can perform this function.

All three of the following files must be uploaded to the **Mobile Web Server**.

PROFILES.CSV (Wrestler Names)
SCHOOLS.CSV (School Names)
SETTINGS.CSV (Maneuvers, Values, etc..)

Matside Entry — Upload Files To Mobile Web Server

WARNING

This procedure will clear existing stats and replace profiles, wrestlers and schools.

Select three CSV files from C:\cws50\webout

PROFILES.CSV

SCHOOLS.CSV

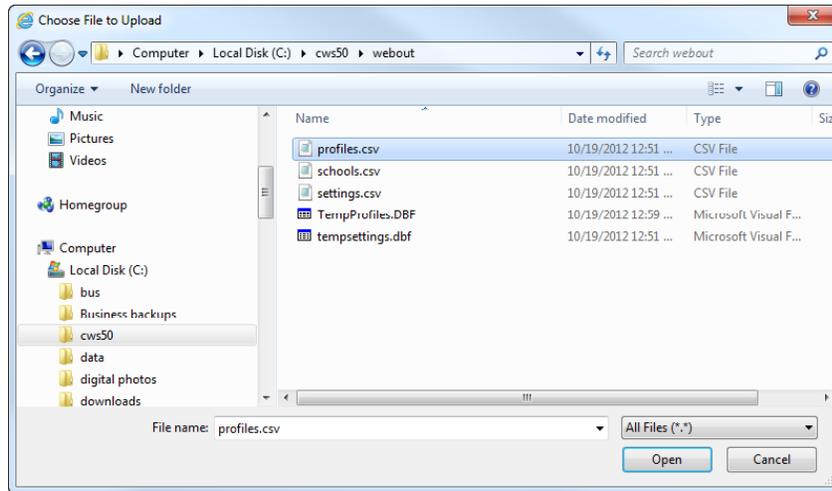

SETTINGS.CSV

This option will also clear (delete) all matches (stats) from the **Mobile Web Server**.

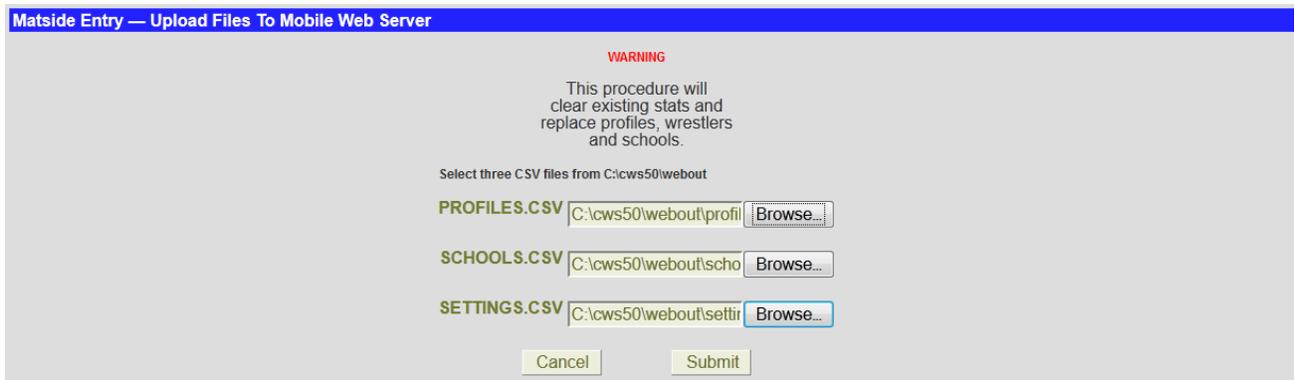

Important!

It is very important to make sure anytime changes are made on *Champion Wrestling Stats* desktop with regards to **Wrestler Profiles**, **Opposing Schools**, or **Program Settings**, that files are uploaded to the **Mobile Web Server**. The data on the **Mobile Web Server** **MUST** match the data on *Champion Wrestling Stats* desktop.

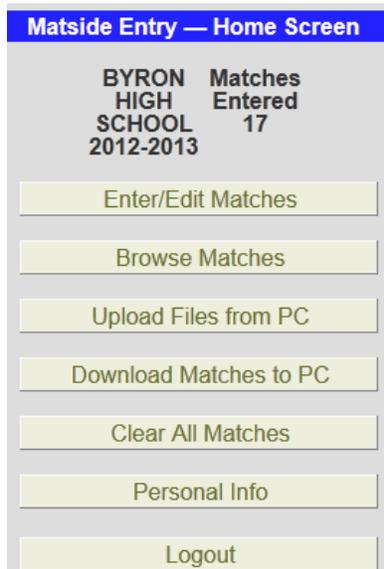

Click the **Browse** button for each file and navigate to the location where the desktop files were saved. This location is **C:\CWS50\WEBOUT**. Once you navigate to this location for **PROFILES.CSV**, it will default to the appropriate location for **SCHOOLS.CSV** and **SETTINGS.CSV**.

Once all file locations have been selected, click **Submit** to upload the files for your school to the **Mobile Web Server**.

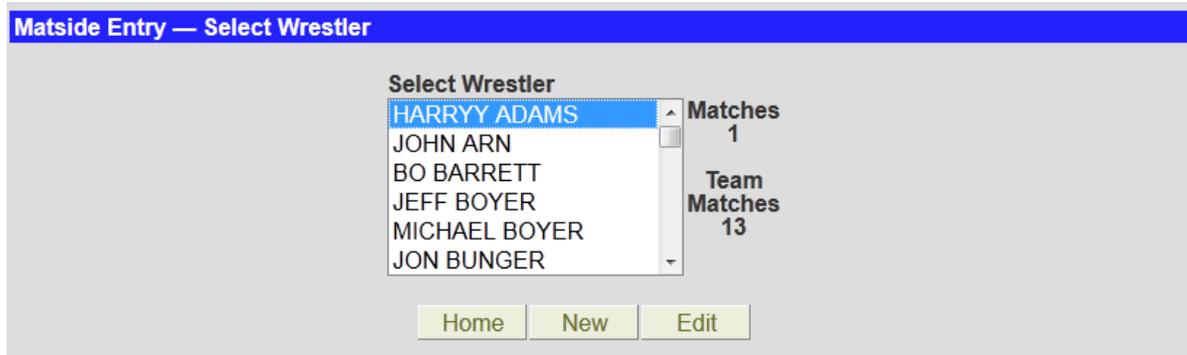

Your **Home Screen** should now reflect your **School Name** and **Season**.

This screen may appear different depending on your mobile device and browser.

Entering Stats Matside

This screen may appear different depending on your mobile device and browser.

This screen allows you to select the wrestler for which you are entering a match.

The **# of Matches** for the highlighted wrestler is displayed as well as the total **# of Team Matches** that have been entered.

At this point you have the option to enter a **New** match or **Edit** existing matches for the highlighted wrestler.

The **Edit** button will not be displayed if there are no current matches for the highlighted wrestler.

Once you have selected the appropriate wrestler, tap the **New** button to begin entering a new match for the highlighted wrestler.

This screen may appear different depending on your mobile device and browser.

(New match) will appear to the right of the wrestler for which you are entering a match.

The following fields need to be entered. Those with an **asterisk** * require data to be entered.

Opponent *

Enter the opponent's name.

Opponent:

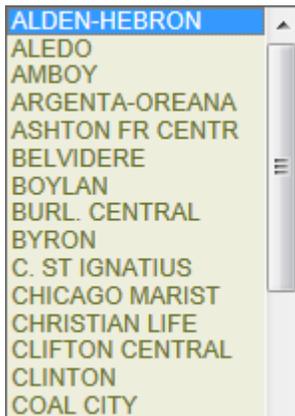

Wt. Class *

Enter the weight class (numerals or characters).

Wt Class:

School *

Tap the drop down arrow and select the appropriate school.

Tip: You may have a dual meet or tournament where you wrestle a school that was not entered on your desktop and uploaded to the **Mobile Web Server**. By design, you do not have the ability to enter schools and or wrestlers on your mobile device (**Mobile Web Server**). If we allowed this, there would be issues when importing into your existing season stats on the desktop. We suggest creating a school on *Champion Wrestling Stats* desktop named **TBD** and use this for those occasions when you wrestle a school that is not currently on the **Mobile Web Server**.

Note - All fields must be properly entered before leaving this screen. Appropriate error messages will indicate what necessary fields need to be entered.

The following buttons are available at the bottom of the **Preliminary Match** screen.

- Cancel** – Allows you to go back to the **Select Wrestler** screen and cancel any information entered for the current match.
- Detail** – Allows you to go to the **Match Detail** information screen where the details of the current match can be entered.

Tip: You may want to set up multiple matches for a dual meet or tournament prior to the actual dual or round of a tournament. Enter the **Preliminary Match** information (opponent, school, weight class, date etc...) for each match and then click **Detail** followed by **Save** on the **Match Detail** screen. Continue for each match in the dual meet or round of the tournament. Once the dual meet or round of the tournament begins, all you have to do is **Edit** or **Browse** the match for each wrestler. Make sure you **Edit** the match and do not start a **New** match which would duplicate matches for that wrestler.

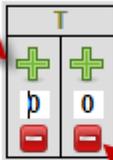

When you are finished entering data from the **Preliminary Match** screen, you can tap **Next** to move to the **Match Detail** screen where you will enter the actual results of the match. The following screen will appear.

This screen may appear different depending on your mobile device and browser.

Match information is entered very similar to the **Matside Entry** on the *Champion Wrestling Stats* desktop.

Increment (+1)

Decrement (-1)

For each maneuver there are buttons to tap which **increment** and **decrement** your wrestler's totals and opponent's totals

The upper buttons **increment** the maneuver's value and the lower buttons **decrement** the maneuver's values

The **Score** field will update the match score when you tap maneuvers as they occur throughout the match.

If you manually make changes to the **Score** field, you can tap the **Calc** button to update the **SCORE** value.

W/L *

Tap the drop down arrow and select whether the match was won or lost.

Result *

Tap the drop down arrow and select how the match was won or lost.

Pts For

Enter the number of points earned for your wrestler. (Numeric field only)

Pts Against

Enter the number of points scored against your wrestler. (Numeric field only)

Score

The match score is updated each time you tap one of the maneuver buttons or tap the **CALC** button.

You can also enter character information i.e. – **F 1:45** or **TF18-2**.

Calc

This button will recalculate match score.

Reset

This button will reset all match values to 0.

Note - All fields must be properly entered before leaving this screen. Appropriate error messages will indicate what necessary fields need to be entered or adjusted.

The following buttons are available at the bottom of the screen.

- Prelim** – Allows you to go back to the previous screen for **Preliminary Match** information. If you accidentally start to enter a match and wish to return, simply tap the **Prelim** button to return to the previous screen for **Preliminary Match** information.
- Save** – Allows you to **Save** information for the current match. After saving your match you will return to the **Select Wrestler** screen.

Browse Matches

This option allows you to quickly view all current matches entered for your school.

Matches are initially sorted in the order that matches were entered. You can click on a column header to sort by that column. Clicking the column header will toggle ascending and descending sort order. You can also use the navigation toolbar at the bottom of the screen to quickly cycle through matches.

Edit Match for an Individual Wrestler

This screen allows you to select the wrestler for which you are editing a match.

The **# of Matches** for the highlighted wrestler is displayed as well as the total **# of Team Matches** that have been entered.

At this point you have the option to enter a **New** match or **Edit** existing matches for the highlighted wrestler.

The **Edit** button will not be displayed if there are no current matches for the highlighted wrestler.

Once you have selected the appropriate wrestler, tap the **Edit** button to begin editing an existing match for the highlighted wrestler.

The screenshot shows a mobile application interface titled "Matside Entry — Preliminary". It displays a form for editing a match for "JEFF BOYER (Edit match)". The form includes several fields: "Opponent" (ADAMS), "Wt Class" (160), "School" (DANVILLE), "Date" (11/18/2012), "Level" (VARSITY), "Conf/Non Conf" (CONFERENCE), "Dual/Tourney" (DUAL), "Comment" (Test), and "Scouting Comment". At the bottom of the form, there is a ">>" button and a row of four buttons: "Cancel", "Save", "Delete", and "Detail".

(Edit match) will appear to the right of the wrestler for which you are editing a match.

Using the buttons below (**Previous** and **Next**), cycle through matches entered to find the match you are editing.

Make the appropriate changes on the **Preliminary Match** screen. If no changes are needed on the **Match Detail** screen, tap **Save** to save your changes and return to the **Select Wrestler** screen.

If additional matches need editing, you can cycle to the appropriate match and makes changes as you did previously.

If changes also need to be made on the **Match Detail** screen, tap **Detail** and make the appropriate changes on that screen.

Downloading Matches to Desktop PC

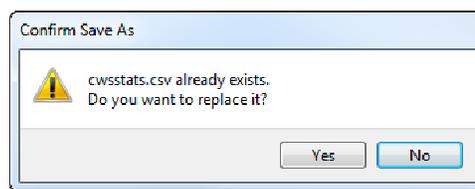

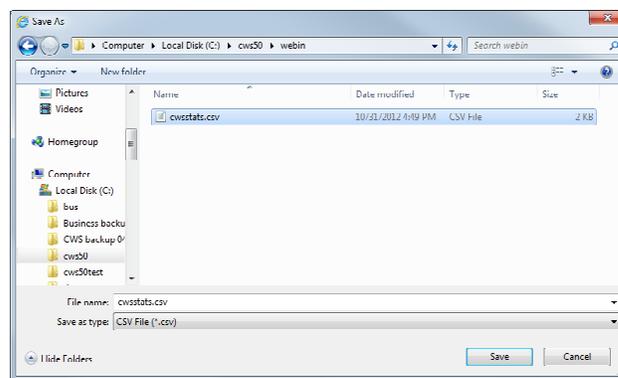

On **Desktop PC**, use your browser and log into *Matside Entry* and take option to **Download Matches to PC**.

When taking the option to **Download Matches** (stats) from the **Mobile Web Server** to your **Desktop PC**, you will be presented with the following dialog indicating the suggested location of the file **CWSSTATS.CSV**. The file can be downloaded to any known location. The default location for the desktop version of *Champion Wrestling Stats* will be **C:\CWS50\WEBIN**.

Proceed with the download of **CWSSTATS.CSV**

Depending on the version of your desktop browser, you will be presented with dialogs similar to those below. See **Help** document below. Choose **SAVE AS** for your option and navigate using the dialog below to **C:\CWS50\WEBIN** (strongly suggested) or a designated download location. Your browser may only have the option to **SAVE** the file **CWSSTATS.CSV** to a default **DOWNLOADS** folder on your **Desktop PC**. If this is the case, make sure you are aware of that location and use that location when importing into *Champion Wrestling Stats* desktop.

Click **Yes** when asked to replace **CWSSTATS.CSV**.

It is **strongly** suggested that you change your browser settings to “**Always ask me where to save files**”.

When downloading matches to your PC, the file name should be saved as **CWSSTATS.CSV**. We recommend saving this file in **c:\cws50\webin**, the location that *Champion Wrestling Stats* desktop will look for when importing stats.

Many browsers will by default save the file to the **Downloads** folder. If **cwsstats.csv** is already there, it may save the new download as **CWSSTATS.CSV(1)** or **CWSSTATS.CSV (2)** etc... This will **not** work.

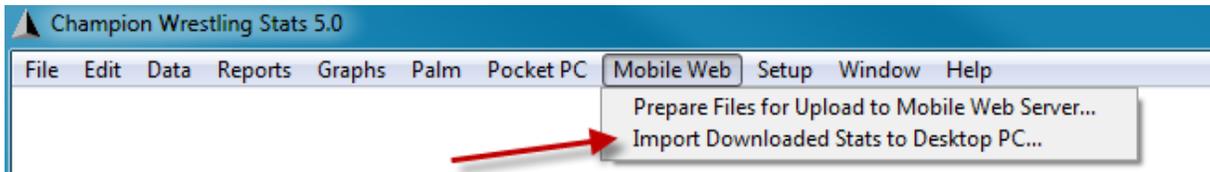

When you import files, *Champion Wrestling Stats* desktop will be looking for **CWSSTATS.CSV**, **not** **CWSSTATS.CSV (1)**. The file needed by *Champion Wrestling Stats* desktop must be saved as **CWSSTATS.CSV**.

Opening the file and doing a **Save As**, saving the file as **CWSSTATS.CSV** can accomplish this.

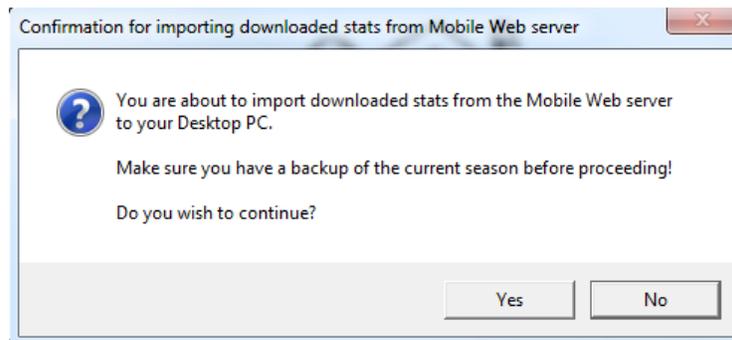

Tip: Here is a link to a **Help** document for **Changing Download Location** in Mozilla Firefox, Internet Explorer, Google Chrome and Safari. www.pes-sports.com/ChangeDownloadLoc.pdf

Importing Downloaded Stats from Mobile Web Server to Desktop PC

Once stats have been downloaded from the **Mobile Web Server**, it is necessary to import those stats into your **Desktop PC**. This can be accomplished by clicking on **Mobile Web | Import Downloaded Stats to Desktop PC** from the menu bar of *Champion Wrestling Stats* desktop software.

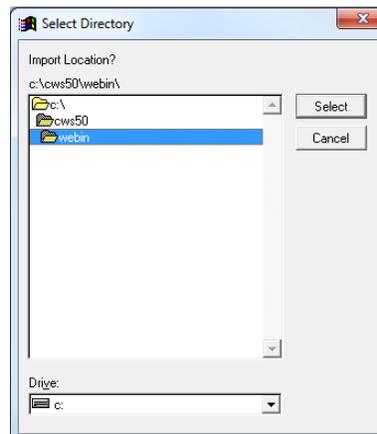

The following dialog will appear.

Note: It is important that you **ALWAYS** have a backup of your current stats before importing stats from the **Mobile Web Server** in the event that there are problems with the collected stats.

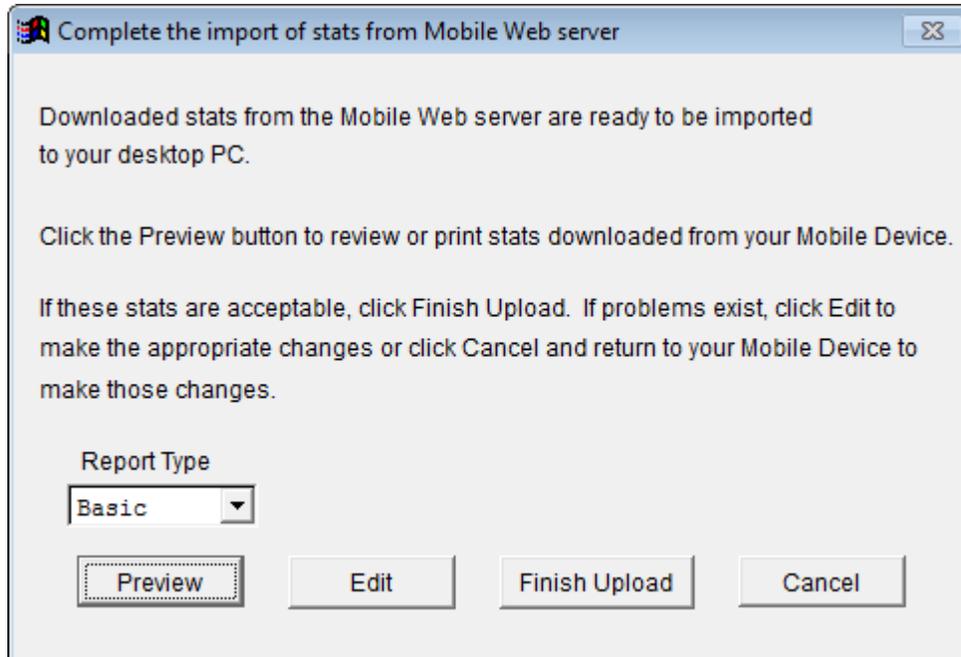

After clicking **Yes**, the following dialog will appear

Select the appropriate directory (folder) where you downloaded this file. The default location for the downloaded stats file **CWSSTATS.CSV** will be **C:\CWS50WEBIN**. *Champion Wrestling Stats* desktop will always look for a file named **CWSSTATS.CSV**. If your browser automatically saves the file to the **Downloads** folder or another folder, it may append a number after **CWSSTATS.CSV** and change the name to **CWSSTATS.CSV(1)**. This file needed for import must be saved as **CWSSTATS.CSV**. Opening the file and doing a **Save As**, saving the file as **CWSSTATS.CSV** can accomplish this.

Tip: Here is a link to a **Help** document for **Changing Download Location** in Mozilla Firefox, Internet Explorer, Google Chrome and Safari. www.pes-sports.com/ChangeDownloadLoc.pdf

After selecting the appropriate folder and clicking **Select**, you will be presented with the following screen.

At this point, the matches entered on the **Mobile Web Server** are not actually moved to your **Current Season** on *Champion Wrestling Stats* desktop.

You have the following four options for dealing with the downloaded stats:

- **Preview**
- **Edit**
- **Finish Upload**
- **Cancel**

Each of the above options will be explained in detail on the following pages.

Preview

This option allows you to preview the matches that were downloaded from the **Mobile Web Server**. Matches may be printed for a more complete review before finishing the import process. You have the option of previewing or printing a **Basic** or a **Detail** report.

Edit

This option allows you to make changes to any matches. Editing this data is similar to editing stats, as you would do when making changes to your stats on the **Desktop PC**.

Normally a coach would enter information that was not entered matside such as team points, place in tournament, actual weight at weigh-in, etc... You could exit at this time and go back to the **Mobile Web Server** and make the changes there. However, editing is probably easier on the **Desktop PC**. Editing can be done here or after the matches have been imported into *Champion Wrestling Stats*.

Finish Import

This option actually moves the downloaded stats into the **Current Season**. Make sure you are in the correct season before taking this option. The only way to **undo** this action is to individually delete matches that were added during the import. It is **strongly** suggested that you **BackUp Current Season** before importing matches to *Champion Wrestling Stats* desktop.

You will be presented with the following verification screen.

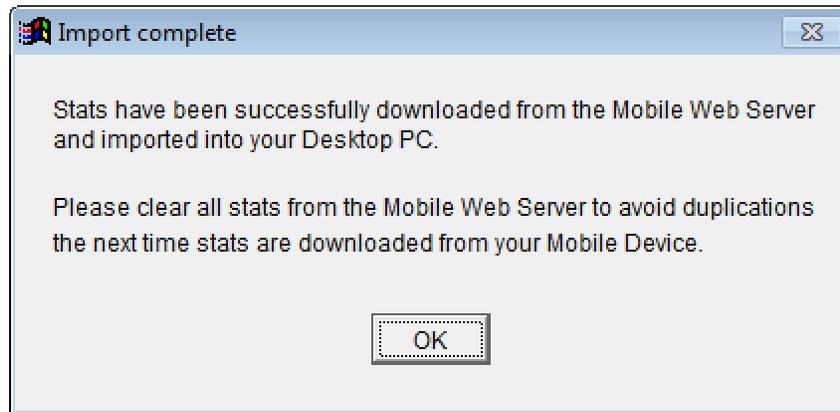

Final verification

Stats from Mobile Web server will be imported into
BYRON HIGH SCHOOL - 2012-2013 season.

Are you sure you want to continue?

Yes No

The following screen will indicate that the import has been successful.

Cancel

At any time before finishing the import, you can click **CANCEL**, make changes on the **Mobile Web Server**, and import your stats another time.

Clear All Matches

Once you have successfully imported your matches into *Champion Wrestling Stats*, you can **Clear All Matches** on the **Mobile Web Server**. You will then be ready for another match entry session on the **Mobile Web Server**.

If you do not **Clear All Matches** before entering additional stats, previous matches (stats) entered will be duplicated then next time you download to the **Desktop PC** and import into *Champion Wrestling Stats*.

At this time make a **BackUp** of your **Current Season** on the **Desktop PC**. Open *Champion Wrestling Stats* desktop version and click **File | BackUp Current Season...**

The screenshot shows a dialog box titled "Matside Entry — Clear Match Results". The background is light gray. At the top, there is a blue header bar with the title in white. The main content area contains a red "WARNING!" label, followed by a warning message: "This procedure will clear existing stats. Make sure all current stats have been successfully uploaded to Desktop PC before continuing." Below the message is a text input field with the prompt "Type CONFIRM to clear:". At the bottom, there are two buttons: "Cancel" and "Submit".

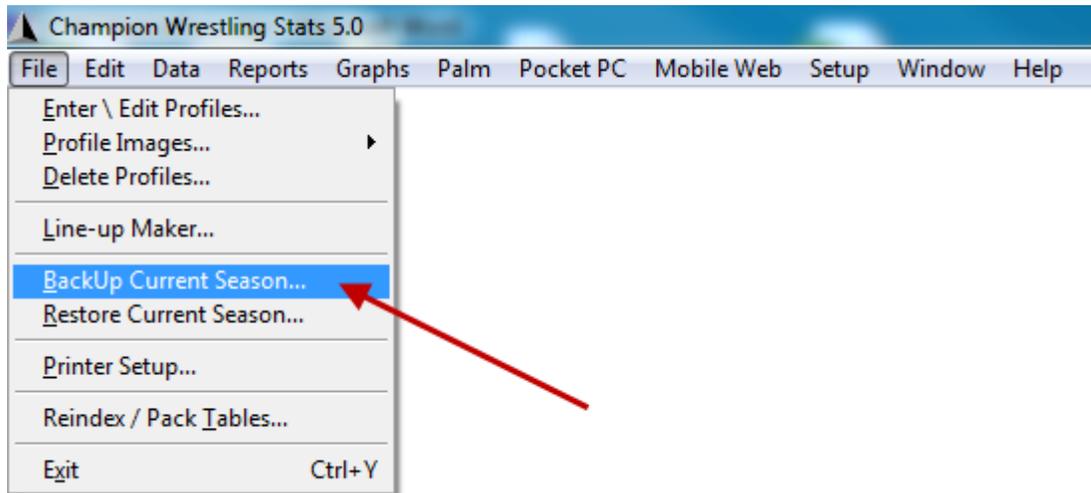

Important!

If you are at a dual meet or tournament and decide you need to **Clear All Matches**, make sure that other users from your school have not already entered matches. **Clear All Matches** will delete all existing matches on the **Mobile Web Server**.

Important: Make sure that the coach or designated statistician performs this procedure and does a **BackUp** of your **Current Season** prior to each match entry session.

BackUp Current Season

At this time make a **BackUp** of your **Current Season** on the **Desktop PC**. Open *Champion Wrestling Stats* desktop version and click **File | BackUp Current Season...**

You will be presented with the following screen (**Select Directory**). Click on the **Drive** and navigate to the location where you wish to **BackUp** your **Current Season**.

Personal Info

This option allows the account **Admin (Coach)** to make changes to information entered at the time of **Registration** including **Coach Password** and **Stat Taker Password**.

Note: These passwords must be different.

The account **E-Mail** can only be changed by contacting **Preferred Educational Software**.
